INTRODUCTION

Asian Control Conference (ASCC) is the international conference held in Asia contributing to the progress of control science and technology not only of Asia but also of the world. It started in 1994 with the first hosted by Tokyo Metropolitan Institute of Technology. The second ASCC was held in 1997 in Seoul, Korea and subsequently in Shanghai (2000), Singapore (2002), Melbourne (2004), Bali (2006), Hong Kong (2009), Taiwan (2001), Istanbul (2013), Kota Kinabaru (2015), and Gold Coast (2017). **In 2019, just a quarter-century after the 1st ASCC, it will come back to Japan.**

LOCATION

The conference will be held at **Kitakyushu International Conference Center** in **Kitakyushu, Fukuoka, Japan**. The convention center prepares excellent conventional facilities and activities. It is within 10-minute walk from JR (Japan Railway) Kokura Station.

Kitakyushu-city is itself very attractive in various aspects - high-tech industries, cultural activities, sightseeing resources and delicious cuisines. It is also quite convenient to visit other well-known sightseeing areas such as Yufuin (Oita), Huisetenbosch (Nagasaki), Mt. Asosan (Kumamoto), and Miyajima (Hiroshima).

SCOPE

This conference will cover all aspects of control, including

- Control Theories
- Industrial Applications
- Control Devices, Sensors and Actuators
- System Identification and Modeling
- Robotics and Mechatronics
- Motion and Vibration Control
- Autonomous Vehicles
- Medical and financial systems
- Cyber Security
- Communication
- Other Topics Related to Control
